

# We've Seen The Future And We're In It.

Long, strong, and very beneficial for everyone involved. That's how we see the future of AR Europe. But that's only the beginning. AR is the ultimate source for testing & communications solutions in EMC, wireless and beyond, AR is strongly committed to serving the needs of all our present, past and future customers throughout Europe ... with the kind of quality products and exceptional service for which AR is famous.

We've already made some major moves that will make it easier to access the AR solutions you need, no matter where you're located. Our new AR Europe website allows you to directly connect to all AR products, along with an easy-to-use price list, with all prices in Euros. Amplifier systems, modules, complete test systems, antennas, and all the accessories you need are all right there at [www.ar-europe.ie](http://www.ar-europe.ie)

The global market is growing more and more competitive; but you can rest assured that AR will be there to give you the competitive edge you need to succeed.
